

To Whom It May Concern,

It is a major concern to this citizen of the U.S. that the media sources in this country are becoming dangerously too consolidated in terms of ownership. It is crucial that this not be allowed to happen if this country is to remain 'The Land Of The Free'.

Listen to the voice of the public and serve it as your agency has been created to do. Do not allow the multi-national corporations to gain any more control over the flow of information that they already have. This is extremely important.
